It is a legal requirement that any person who wires houses or any other premises, possess a valid licence. Under the Electricity Ordinance there are Regulations for examination, licencing and registration of electrical engineers, chagemen, wiremen and electrical contractors and the granting of certificates of competency and of registration to such persons operating in St. Helena.

Anyone wishing to obtain a St. Helenian Electrician's Licence should in the first instance contact Colin Anthony, Electricity Distribution Manager on 22255.
