

## **PUBLIC ANNOUNCEMENT – WATER UPDATE**

Connect Saint Helena Ltd sincerely thanks all consumers for their responsible use of water during the recent dry period. Your efforts have played a vital role in safeguarding our island's supplies.

We are pleased to share that, following the recent rains, reservoir levels have improved and we are no longer in Stage 1 drought restrictions. This is welcome news, but we encourage everyone to continue practicing good water-saving habits to ensure long-term resilience and protect our island's resources.

### **Water Saving Tips:**

- Fix household leaks promptly – even small drips add up.
- Collect rainwater for gardens and outdoor use.
- Run washing machines and dishwashers only with full loads.
- Turn off taps while brushing teeth or washing dishes.

By maintaining these simple habits, we can reduce the risk of future water shortages.
