

www.sunnyportal.com

You may be interested to know that electricity generation data for all of our solar sites is publicly accessible on-line.

You can access the Sunny Portal website from either the link above or use the link from our own website, www.connect.co.sh.

Use the following instructions to find the Saint Helena pages.

Once you have accessed the Sunny Portal website:

1. Click on **“Publicly available PV systems”** (circled in red on photo below)
2. In the **“Country”** search drop-down menu, select **“Saint Helena”**
3. Click on **“Search”**
4. Click on the **“St Helena – Rifle Range”** PV System then use the menu on the left to see annual comparisons, monthly reports and much more.

	Yesterday	Total
PV SYSTEM:		204,718
TOTAL ENERGY (TWh)		258.05
AVOIDED CO ₂ (Mt)		180.63
